

Clarity

Noor

We are not alone
As we make our way through life
There's a power most divine
Sending guidance to mankind

Knowledge you can share
Like the flowers bloom in spring
Manners to transform
Butterflies with colored wings

Can you see
Can you hear
Can you feel
With clarity

Each and every breath
Is a blessing from the One
Who sees inside our hearts
Who taught us right from wrong

Cleansing for our soul
Like a river fed by snow
Purpose for our life
Soaring high above the clouds

Open your eyes to the truth
Listen with your heart to the words
Let the brilliant light touch your soul
Let it change your life forever, and call out to the One
I believe in You alone
