

## These Times

Normals?!

It's these times that I could kiss you  
It's these times when you're asleep  
It's these times you feel so dirty  
It's these times you feel so cheap

It's these times when you're the loser  
The times you're gabbing on the phone  
It's these times you're singing love songs  
It's these times you're all alone

It's these times when you're the victim  
It's these times when you're the saint  
It's these times when you're the bad guy  
Who's inflicting all the pain

It's these times you sail the ocean  
The times you wash up on the shore  
It's these times you feed the hungry  
It's these times you rob the poor

It's these times you burn the house down  
It's these times you're getting burned  
It's these times you do the right thing  
It's these times you never learn

It's these times that you deny me  
And ignore everything I've done  
It's these times you crucify me  
It's these times you're still my son

It's these times I love you  
It's these times I love you  
It's these times I love you  
It's these times I love you
