

## All along

North Mississippi Allstars

I never had a clue  
I trusted you  
I can't believe you've done this to me  
Never had a clue untrue  
All along, all along, all along, all along

You wasted so much of my time  
Can't get it off my mind  
Put all my faith in you  
I don't know what to do  
Shoulda known you were doin' me wrong  
All along, all along, all along, all along, all along

Underneath the dreams that fall apart  
Are nightmares and broken hearts  
Why didn't you just let me go  
Everybody knows I'm all alone, all alone, all alone, all alone

From now on I'll be on my own  
I'll think of you every time I hear this song  
I should o' known you were doin' me wrong  
All along, all along, all along, all along, all along
