## Dead

Norther

There's pain within, I can't define Inside, within, inside, illhealthy I feel ---chorus---When your inmost yields and you fall deeper and deeper into grief for each breath you take ---chorus---Dark dresses my pale skin cold shivers down my spine I have lost hope of loving a day of life Faith has fallen from me I'm rotting inside Fear sickening conditions frightening reflections ... feeling divine !!! ... so dim the light in me... ... no nothing ... ...all ending... #solo: P.Lindroos & K.Ranta# Sleeping well in my killing bed staring blind around -Am I slipping away? In the hollow decorating my grave begging please ... disconnect the pain ---chorus---When you're going blind from your tears and you wander deeper and deeper into sorrow for each step you take And your feet won't carry you no more and you sink deeper and deeper into misery and you'll soon be ... dead ---chorus---... so dim the light in me... ... no nothing ... ...all ending...
