Frozen Angel

We were together as one All that we had can't be undone Our love fading, now it's gone Our time fading, so it's done

The blood that binds us It's the blood that binds us Till death unites us

Alone we die My Frozen angel Alone we fade away From this world Alone you die My frozen angel Alone we fade away From this world

We were together as one All that we had can't be undone Our love fading the feeling is gone Our time fading, now it's done

Alone we die My Frozen angel Alone we fade away From this world Alone you die My frozen angel Nothing I do, nothing I say Fade Away, My angel, My angel Norther
