

# Midnight Walker

Norther

I am here again  
when the day is done  
I'm back again  
to steal your life  
and I won't go away  
Tonight's the night to die  
you can try to run  
but you will die  
The end end is near  
look at me  
you'll feel the fear

I'm your Master,  
Emperor, the King  
I will always rule your night  
You must run faster  
the death is in the ring  
Staring right into your eyes

I'll take away your life  
and end your pain inside  
I wan't to die with you, like you  
I am the deadly stalker  
I am the Midnight Walker  
the one you try to hide  
Now say your life goodbye

I'm the shadow behind you  
that you can't see  
but you know it's there  
The day is rising  
and I'm fading away  
Daytime has made you free  
but only for today  
Dusk is falling  
and once again  
I'm in your head

I'm your nightmare,  
fantasy and insanity  
Only thing you see  
death will make you free  
So walk a little closer  
and give your life to me  
Let me end your pain

I'll take away your life  
and end your pain inside  
I wan't to die with you, like you  
I am the deadly stalker  
I am the Midnight Walker  
the one you try to hide  
Now say your life goodbye

I'll take away your life  
and end your pain inside  
I wan't to die with you, like you

I am the deadly stalker  
I am the Midnight Walker  
the one you try to hide  
Now say your life goodbye
