

The Victorious One

Norther

Kill...
Again I see the shadows
Crawling in my mind
I try run but I can't hide
This endless war inside me
Has torn my heart apart
My minds vengeance will be so sweet

Again I'm on the run
To kill the pain inside me
I am the one who cries
In the dark alone
Hearing voices,
I have to kill those evil memories
You don't know,
But you have to die beside me

The night is here and I'm close to you
There is a question for you to answer
Will you be with me forever
Or will you die, just for me
I'm free 'cause you chose to die
But it won't change a thing
The fire in our souls
Has died away
My heart is evil
And I have this lust to kill you
We are together in death
And so it shall be

With my heart I see the flames again
They are there for me
With my evil memories
I burn in misery
I know there's a sorrow around you
But time will heal
I told you a lie
That I could never die
The night is here and I'm close to you
There's a question for you to answer
Will you be with me forever
Or will you die, just for me
