## Thorn

Norther

In my eyes I despise your twisted life Something controlling your fucked up mind? Just a thought of you with your twisted little smile Stings me like a thorn in my spine

You told me sacred lies Through your twisted little eyes you're sick!sick! You're a twisted little star You're a sick motherfucker and a fucking cocksucker Just dwelling in the dark

Thorn in my spine That's all you are Thorn in my spine That's what you are

I can't stand the sight of you I can't stand what you put me through You're a twisted little fuck! You're life a lie that you hide Is it that terrible being you inside?
