

Through It All

Norther

Far past the time of my own time
I realized I was going wrong
This night, this fight, will change my life
All I know will be like it was
Unlike the lies you could make me see
This life is a fight I will survive

Soaring high
Through it all
Burning bridges made me stronger than you all

All things are made and broken
Still I haven't found what broke me down
This night, this fight, will fix my life

Soaring high
Through it all
Burning bridges made me stronger than you all
Drawing lines
Circle-wise
Burning bridges made me stronger than you all
I will remember, I can't forget
You will remember, I can't forget
You will remember, you can't forget
