Wasted Years

Norther

Now it's too late to change the fate To change the way, the time is out Way too soon you had to go away Why so soon you had to fly away The guilt, The pain burning like a flame The pain we feel too bad it's so real Feelings of shame ourselves we blame Throughout the years speaking to deaf ears

(2x)
So many years waiting
So many years now crying
For you

[Solo: P. Lindroos] [Solo: K. Ranta]

Now it's too late to change the fate To change the way, the time is out Way too soon you had to go away Why so soon you had to fly away

So many years waiting So many years now crying For you (5x)
