

Alien Girl

Northern Lite

alien girl
be my guest
try me food
I'll give my best
drink some wine
and take a rest
I will get it
off your chest

alien girl
don't be shy
there is nothing
I will try
and if the pressure
seems to peak
I will listen
when you speak

and I can feel you
I know what they've done
I'm gonna take you with me on my way to the sun

alien girl
now that you're free
come right here
and dance with me
don't look down
smile at me
and forget life's vanity

alien girl
watching the stars
thinking of home
hiding the scars
knowing the need
she's wishing away
getting too close
we're living today

and I can feel you
I konw what they've done
I'm gonna take you with me on my way to the sun
