

Moonlight Spell

Northland

Sleep and dream child of night,
I will be by your side
Dark secrets unfold under oceans of stars

Close your eyes, feel the calm,
the light of day is over.
Hear the wind whispering songs,
join the dark, I'll watch over you.

Moon in the sky will you be my guide?
Show me the way through the darkest nights
Child take my hand...

Deep inside of your thoughts
dwells the torment of your soul.
Let my light bath your spirit,
you and I will dream away.

Fly with me, rest among stars
in this solemn night, we'll become one.

Fly with me, rest among the stars
in this solemn night, we'll become one.

Moon in the sky will you be my guide?
Show me the way through the darkest nights.
Child take my hand...

Sleep and dream child of night...
I will be your side
