

## Where the Heroes Die...

Northland

Together we march! Towards the battle!  
With our powerful hearts  
Starlight guide us! Show us the way!  
Its cold light reflects our victory  
(Victory)

10.000 men to the glory they rode, and they fell!  
Where the heroes die...  
10.000 dreams to oblivion  
remember them forever more.

Clouds are hiding the pale moonlight  
we smell the death close to us  
I promised give my life and fulfill the prophecy  
but the gods failed us the stars are coming down  
(Like arrows)

Although we'll fight, we know we'll die!  
As heroes we'll fight 'til the end!

10.000 men to the glory they rode, and they fell!  
Where the heroes die...  
10.000 dreams to oblivion  
remember them forever more.
