Rocket City

Northstar

I'm thinking I'll fly away
Or take a long drive
And I won't stop
Until I reach the other side
Get lost within myself
In the northern sky, yeah

so save tonight
But tomorrow you won't be alright
So I'll take off tonight
Risk a fall
Say goodbye
Goodbye

When I fall, don't forget me
When I fall, don't forget me
When I fall, don't forget me
When I fall, don't forget me

If I stay here, I'll be dying forever
If I stay here, I'll be dying forever

I'm not scared to fly
I just need golden wings
The kind that'll burn in the sky
Knock the stars down to die?

when I fall, don't forget me
When I fall, don't forget me
When I fall, don't forget me
When I fall, don't forget me

If I stay here, I'll be dying forever
If I stay here, I'll be dying forever
