

# Savage Kiss

Nosferatu

With the trick of the light With a running risk  
She'll lift you up With her magic bliss  
She'll feed your soul To the full with joy  
You'll be feeling great Now that she has a toy  
With the flash of the light When you're feeling bliss  
She'll feed your heart With her savage kiss  
She'll rip you up She'll spit you out  
It'll be up to you To get out now

With a flash of the light  
When you are feeling  
Caught in a trap  
With the passing of time  
When you are feeling Like you've made one grave mistake

She will come with a vengeance for you  
There's nothing that you can do to stop her  
Tearing up your soul Your soul will be what she destroys

With a savage kiss With a savage bite  
She'll lift you up If you're alone tonight  
You'll be okay 'Til you're back is turned  
You'll feel the knife When will you ever learn

With the twist of the moment  
When you are feeling The pleasure of her pain

She will come, she'll be looking for you  
There's nothing that you can do about it  
She'll tear away your soul and kill you When she knows she can

Can you get out of here?  
Before you are in danger Or will you fall in her trap?  
To feel her anger Will you feel her knife?  
Or will you get on the train? Out of here tonight? Out of here tonight?

With the trick of the light With a running risk  
She'll eat you up With her savage kiss  
She'll tear your soul And drain your brain  
Now she has her toy She's feeling great  
With the feeling of danger  
When you are trying  
To run away from murder

She will come with a vengeance for you  
There's nothing that you can do about it  
She'll rip your head to shreds and bury you at any time  
She will come, she'll be looking for you  
There's nothing that you can do to stop her  
She'll tear away your soul and kill you When she knows she can  
She will come with a weapon for you  
There's nothing that you can do to stop it  
You'll be as good as dead  
There is no way you can escape  
She will throw a knife at you and feel no remorse about it  
Tearing up your soul Your soul will be what she destroys
