

# I Am Free

Nostradameus

Deep in my mind  
You'll never find  
No hesitation,  
I know what I came for  
You do not see  
What the past still means to me  
'Cause in my mind you just  
Know me the way I was before

I used to be  
Everything but me  
I used to listen to people  
Who told me what to do  
I never thought  
I'd reach the day  
When I could face you  
And say: "We are through"

I am free, and I promise, you'll see  
You'll see what I am  
You'll see what I'll be  
I am free, I will never turn back  
Back to a day  
When I wasn't me, I am free

So as we talk  
I'll turn the page  
I won't be standing alone,  
I've got friends by my side  
So turn your cheek  
Towards me now  
And let me give you a gift,  
Like you gave me before

I am free, and I promise, you'll see  
You'll see what I am  
You'll see what I'll be  
I am free, I will never turn back  
Back to a day  
When I wasn't me, I am free

I am free, and I promise, you'll see  
You'll see what I am  
You'll see what I'll be  
I am free, I will never turn back  
Back to a day  
When I wasn't me, I am free
