

Excuse Me

Nothing But Thieves

His space crowds out this space,
your space
Your space crowds out hers
Coffee breath and headphone hiss
No one says a word

Eyes upon the paper headline
Trying to use your phone
Bumping shoulders
Cough and sniff
No one says hello

Excuse me while I run
I really gotta get out of here
Excuse me while I run
I really gotta get out of here

My heart beats like yours does
hers does
Her heart keeps good time
And everyday I mind the gap
between you and me
Here comes someone else
to share the air we breathe

Excuse me while I run
I really gotta get out of here
Reach out for anyone
And they will tell you get out of here
I'm asking everyone
You gotta help me get outta here
Excuse me while I run
I really gotta get out of here

Meanwhile
Under the gun
Hey everyone
Our work here is done
We out
You gonna come?
Hey everyone
Out work here is done
