

I know you think I'm kinda strange  
Sitting in this microwave  
A party trick no one sees  
Victim of a thought disease  
Give me just a minute  
Give me just a minute

Baby please, don't hang around  
I don't mean to bring you down  
Give me just a minute  
Found my limit now

Am I gonna get better, better?  
Am I gonna get better, better?  
Because this feels like this might last forever  
Will I ever get better?

War is raging in my head  
Don't know which side wants me dead  
Even if I've lost the fight  
You should've seen the other guy  
Give me just a minute  
Found my limit now

Am I gonna get better, better?  
Am I gonna get better, better?  
Because this feels like this might last forever

Will I ever get out of this thing?  
A serious lack of oxygen  
My poor brain  
Eating me from the inside  
All out of love  
Masks will fall from above  
Please attach your own  
Before dealing with others

Am I gonna get better, better?  
Am I gonna get better, better?  
Because this feels like this might last forever  
Will I ever get better?
