

Graveyard Whistling

Nothing But Thieves

All that afterlife
I don't hold with it
All your gods are false
Just get used to it
Let's go out tonight
Kill some stubborn myths
Set those ghosts alight, get into it.

No ones getting younger
Would you like a souvenir?
Let it take you under
Feel your worries disappear

'Cause if you don't believe
It can't hurt you
And when you let it leave
It can't hurt you
'Cause if you don't believe
Then you know and you know it can never do you harm
If you don't believe, it can't hurt you.

Ok, I admit
I'm not innocent
I did everything and I would again
I'm not listening
I've heard everything
Graveyard whistling
I'm into it

No ones getting younger
Would you like a souvenir?
Let it take you under,
Feel your worries disappear

'Cause if you don't believe,
It can't hurt you
And when you let it leave
It can't hurt you
'Cause if you don't believe
You know it can never do you harm
If you don't believe, it can't hurt you

Got a picture and a password and a number,
Give me access to the cloud I'm living under,
When I go there will I find my sense of wonder?
Open up the gates

'Cause if you don't believe,
It can't hurt you
And when you let it leave,
It can't hurt you
Cause if you don't believe
Then you know, then you know it can never do you harm
If you don't believe,
It can't hurt you
