

## Itch

## Nothing But Thieves

There's a rumbling in my head  
It's getting louder and louder  
There's a shaking in my bones  
It's getting stronger and stronger  
There's a hunger in my heart  
It's full of promise, promise  
There's an itch under my skin  
It's under my skin, under my skin

Cos I just wanna feel something real  
Cos I just wanna feel something

On the pavement  
I was looking for a lover, a lover  
And eyes are rolling  
She noticed, noticed  
There's blood red on my shirt  
And it's shining, shining  
There's a sharp pain from my face  
I kinda like it, I like it

Cos I just wanna feel something real  
Cos I just wanna feel something real  
wanna feel something  
something  
something  
something  
something

I just wanna love  
I just wanna touch  
I just wanna see  
something  
I just wanna love  
I just wanna touch  
I just wanna see

Cos I just wanna feel something real  
Cos I just wanna feel something real  
wanna feel something
