

Live Like Animals

Nothing But Thieves

The T.V. tells us to be scared
We'll make a difference if we care
We put our lives all up for sale
We get our truth from the Daily Mail
It's madness, get used to it

Another unit to be sold
Pig love is all we'll ever know
So we're gonna live like animals
We're gonna live like animals
It's madness, yeah, it's gone to shit

And now the kids are opening their eyes
And now the kids are starting up a fire
Dancing around, dancing around the light

So drink our blood like a parasite
For occupation, socialite
Just looking for another hit
Opinion's what you say it is
It's tragic, get used to it

So write your name as you come in
In case we want to kick you out
We're gonna make you build a wall
We're gonna live like animals
It's madness, it's gone to shit

If you're a something, don't ask for nothing
If you're a nothing don't ask for something
If you're a something, don't ask for nothing
If you're a nothing, don't ask for something

And now the kids are opening their eyes
And now the kids are starting up a fire
Dancing around, dancing around the light

So wake up
So wake up
So wake up
So wake up

So wake up
This ain't a dream
'Cause everything's exactly how it seems

And now the kids are opening their eyes
And now the kids are starting up a fire
Dancing around, dancing around the light

So wake up
So wake up
So wake up
So wake up
So wake up
This ain't a dream
'Cause everything's exactly how it seems

So wake up
