

Lover, Please Stay

Nothing But Thieves

Lover, I know youre weary
Theres a time from the night
Lover come to the kitchen floor
Towels are cold,
so Am I

So take from me,
what you want,
what you need
Take from me,
whatever you want,
whatever you need
but lover, please stay with me

Lover, I feel your sorrow
Pourin out of your skin
I don't wanna be alone
If I end tonight,
I'll always be

So take from me,
what you want,
what you need
Take from me,
whatever you want,
whatever you need
but lover, please stay with me

I can see you,
I can feel you
Slippin through my hands
Oh, I can taste you,
I can taste you
Slippin through my hands
Take from me,
what you want,
what you need
Take from me,
whatever you want
My lover please stay with me
Oh, my lover, please stay with me
