

Blue Skin

Nothingface

I got my green eyes, I got my glass high
I got my thunder and it's rolling straight up inside
She's got the real, gave me a face lift
We got this spaceship and we're just a dot in the sky

Into the sun, return as nothing
Into the sun, return as nothing

I got machine guns and yes they're lots of fun
We got some bullets and we're mowin' everybody down
I got my blue skin and eat my dinner in sin
I got my pride now and I'm all shook up inside

Into the sun, return as nothing
Into the sun, return as nothing
Into the sun, return as nothing
Into the sun, return as nothing

My mother said that all we're angels
But I swear I saw the evil
Evil that bleeds from the sky, from the sky
From the sky, from the sky

So I can't help you now, you saved it for yourself
But you stole everything so you can see it when you
Wake up, you know there is nothing to worship
So fuck you, fuck her, fuck him

They'll kill everyone, we've got to stop them!

Off into the sun, return as nothing
Into the sun, return as nothing
Into the sun, return as nothing
Into the sun, return as nothing

We will spread to every continent
And devour every living thing on the face of the earth

Into the sun, return as nothing
Into the sun, return as nothing
Into the sun
