

Self Punishment

Nothingface

Gotta mind, gotta fine mind

Find out what I'm thinking, what I'm feeling
My confusing living blind mind, no acid pop dreams lampshade dress me
Tripping on greed, my own delusions, table ready salt
Skull conversation demand what's right, lying gold man
Emotion complexion feed your distress, wanting to be, a little nothing

Remake everything, don't want me, can't stop me
Everyone you do is just about dead anyways, fight me, tell me
Refake, fucked up everything, congressman dead oh anyways
Kill every motherfucker that stands in my fucking way, fight me, tell me

Little porno adventure, downward nothing, flight this with me can't conceive this
I'll love hate forever not for better, worse than me, dilated darkness
Little man, what an image, no more breeding, hand on my brain
My little blood stain, no backwards position, my incision, piss ing blood
Tears please don't hurt me

You've fucked jive everything, little slut to me just a wannabe

Gotta mind, gotta fine mind
