

# You Dance

Noumena

My outcast eye tremble from cold  
can you feel the inner breeze?  
Fragments of forlorn warmth are  
denied by your elusive thoughts  
Release me from this path of agony  
and bleed all the misery away  
from my jaded heart

You dance into tomorrow's flames  
as I cast lose another dream of you  
You breed another velvet thought  
and fade it away from my heart

The night is calm  
I can hear your sigh  
As one we shiver  
as the rain falls down  
In this dream  
like reality  
though moonlight is warm  
cruel emptiness fills my heart again

Carry away my dreams  
Burn them away with your words  
Grow my seeds of hope  
Harvest them with your deeds

Though night is cold  
I can't hear your weep  
Apart we shiver  
as the rain falls down  
In this reality  
like nightmare  
the moonlight is cold  
cruel emptiness fills my heart again

Carry away my dreams  
be pleased to ignore them  
in your elusive mind  
Can't you see the truth  
Can't you see, I'm the one for you

Within my infinite hours  
the loneliness is my companion  
when I drown into my darkest dreams  
and when I wake up again  
When will I realize  
that I'm not your everything  
and spill all the blood away  
from by betrayed heart
