

Come Out of Your Darkness

Novaspace

Come out of your darkness
Let me guide you the way

A blame chain of comin lies up and down
He says my good
It's enough
You don't do me well
I gotta break the spell

And now I've been tickin off day (?)
By the side walk
Trickin my love
And it hurts so bad
Till I found myself

Out on a big, big night
In a big fat car
With the in crowd moment
'Bout my techno heart
But I told them once
I told them twice
Yes, I say

Chorus
Come out of your darkness
Let me guide you the way
There is more to share in this life
You know what I say
I say, I say
Come out of your darkness
Let me guide you the way
There's a river of joy in this life
You know what I say
I say, I say

A good god (?)
All about love
And the course
And the wish to be good in every way
I can't find it today

I'm just gettin' bored
By the thought
That my love is anotherone able to bring me down
We're not save in sound

So out on this big, big night
In this big, fat car
With the in crowd moment
'Bout my techno heart
But I tell them once
I tell them again
Yes, I say

Chorus
Come out of your darkness
Let me guide you the way

There's a river out in this life
You know what I say
I say, I say

Come out of your darkness
There is more in life than this
There's a river...and you know what i miss,
i miss, i miss,...

You know what I say,
I say and there's more in Life in this ...
and there's more than one Thing I miss.
I miss you...I miss you...you...you...only you
