

# Dancing Into Danger (Maddox Remix)

Novaspace

Watching and waiting  
Checking on every move that you make.  
If you go dancing into danger

You keep hesitating  
Knowing you'll pay for any mistake  
You won't be dancing into danger

In a foreign land there's no home ground  
There's nowhere to run to in this town  
Stay on your guard both night and day  
You've got to be ready  
Come what may

Dancing into danger  
Dancing into danger

Watching and waiting  
Checking on every move that you make  
If you go dancing into danger

You keep hesitating  
Knowing you'll pay for any mistake  
You won't be dancing into danger

You're an alien and you don't belong  
But you're pretending to be just one of the throng  
So conscious of every word you say  
You're not gonna give yourself away

Dancing into danger  
Watching and waiting  
Dancing into danger  
Checking on every move that you make  
If you go dancing into danger

Dancing into danger  
You keep hesitating  
Dancing into danger  
Knowing you'll pay for any mistake  
You won't be dancing into danger

They're out to get you  
Gonna get you now  
They're out to get you  
Gonna get you now  
They're gonna get you  
Gonna get you now

Watching and waiting  
Checking on every move that you make  
If you go dancing into danger

Dancing into danger  
Dancing into danger  
Dancing into danger  
Watching and waiting

Dancing into danger  
Checking on every move that you make  
If you go dancing into danger

Dancing into danger  
You're watching and you're waiting  
Dancing into danger  
Checking on every move that you make  
You won't be dancing into danger  
Dancing into danger
