

It's Too Late

Novaspace

It's too late

It's about time to say goodbye
Nothing more to try
Seems like my love was born to die
Please don't ask me why
'cause you know
So I packed my bags and I'm leaving you behind
I won't cry any tears for you no more
It's too late to say you sorry
It's too late to regret

Where have you been when I needed you
Where have you been when I was feeling blue
Please stop telling that you wait for me
'cause it's too late, it's too late

Where have you been when I needed you
Where have you been when I was feeling blue
Please stop telling that you wait for me
'cause it's too late, it's too late

Just can't believe the things you say
Fake like snow in May
So there's no chance to make me stay
Sorry I won't wait anymore
Time to face the truth and there is no time in back
I'll be gone
Until the end of time
It's too late to say you sorry
It's too late to regret

Where have you been when I needed you
Where have you been when I was feeling blue
Please stop telling that you wait for me
'cause it's too late, it's too late

Where have you been when I needed you
Where have you been when I was feeling blue
Please stop telling that you wait for me
'cause it's too late, it's too late

It's too late for I miss you
It's too late for I care
It's too late for I love you
It's too late I don't care
