

## Tears in May

Novaspace

Whispering voices in the night  
Speaking to me of the mystery of love  
In the twilight of my mind  
I can see the shadows of death  
Tears in May show my pain  
And wash my love away like the rain  
Tears in May tell me why  
Was our dream born to die all in vain?  
Tears in May, tears in May  
The secret world of our dreams  
Is still waiting in my soul  
And when the moon is shining through the clouds  
My love will take control  
Tears in May show my pain  
And wash my love away like the rain  
Tears in May tell me why  
Was our dream born to die all in vain?  
Tears in May, tears in May  
And I hear Cassandra calling  
When the stars of fate are falling  
I'm so lonely and I cry those tears  
Tears in May, tears in May  
Tears in May show my pain  
And wash my love away like the rain  
Tears in May
