

Don't Ever Let It Get You Down

Novastar

I'm the answer to every question you ever had
I know how it feels I know it ain't that bad
You have all you could want
Every end a new start
You know how good it could be

You've been running around
Running around like a wheel
You keep fulfilling yourself
Just stop and you will heal
All you need is some love
You can never give up
You know how good it could be

Don't ever let it get you down
I would turn the world around for you
Cause what you feel ain't gonna last
I'll make it pass
Everything will be ok
You're gonna have it anyway
It's true sometimes it takes some time to pass
Don't make it last

You shine on light every time
I see you smile
And how I realize it's been a while
All you need is some love
You can never give up
You know how good it could be

Don't ever let it get you down
I would turn the world around for you
Cause what you feel ain't gonna last
I'll make it pass
Everything will be okay
You're gonna have it anyway
It's true sometimes it takes some time to pass
Don't make it last
