

come the morning
I might know why
I still miss you
got a long long way to go

feel the morning
wherever you are
could you spare me
a thought from a far
what's the use in reasoning with someone I can't fale

once you were special
you showed me the way to go
now one day they'll find you
I guess you don't wanna know

you were changing
yeah, you made me cry
but not to worry
I can laugh about you now

got a good friend
to see this lifetime through
come the morning
I might spare a thought to you
what's the use in reason with someone I can face

once you were special
you showed me the way to go
now one day they'll find you
but I guess you don't wanna know

oh no insanity done it again
makes me feel so filthy
oh no insanity done it again
but I know you're guilty

I know that you're guilty
I know that you're guilty
This time it seems we have nothing to share
This time it seems we have nothing to share
