

Of all the faces that I see  
There isn't one that stays with me  
We may be dead but you're not gone  
Forever here inside of me  
Don't get me wrong I feel so free  
I feel so free in here

of all the places that I've been  
There isn't one that stays with me  
I simply like to be alone  
I simply like to feel this need  
Don't get me wrong I still hold on  
I still hold on in here

along the way you grow on me  
And it feels so great  
It frees me you free me

of all the voices that I hear  
There isn't one that speaks to me  
We may be dead but you're not gone  
Forever here inside of me  
Don't get me wrong I still hold on  
I still hold on in here

along the way you grow on me  
And it feels so great  
It frees me you free me  
I feel so free I feel so free  
I feel so free along the way
