

Sundance

Novastar

Open your eyes
I mean nothing
Being right up with the stars
As you know

You wasted your time doing sundance
And I'm right up with the stars
As you know

You're the last stop I beseech you
Given time I had believed you
In time I would believe you
Does it get you nowhere

What about endlessly talking
Rather than to run you should walks
Another new day will be dawning
And I'll fade out with the stars
As you know

You're the last stop I beseech you
Given time I had believed you
In time I had believed you
Does it get us nowhere
