

I'm really closing in on you
I really wondered what sound feels all right
In everything I do
Always wondered if the sound feels right
So come on out and see
Come on out and change the world around us
Where nothing seems to be
Always wondered if the sound was found

I saw stars in the blackest night
Of my life, of my life
I saw the stars black as night

So come on out and see
Come on out and change my innervision
Where I was left to be
Left to wonder
If the sound' been found

I saw stars in the blackest night
Of my life, all my life
I saw the stars
Black as night
