

# Ghost

## Novembers Doom

[Verse 1]

Dense fog burns the sky  
Vile air blisters earth

Run, run while you can  
Every turn brings pain  
Run, run while you can  
Fear will collapse the lungs

You found me  
Even through my best attempt to hide  
I can feel this presence creeping so suddenly

[Chorus]

I'm haunted by the ghost of yesterday  
Visits my dreams and steals breath away  
Relive the moments, I'm desperate to ignore  
I don't want to feel this pain anymore

[Verse 2]

You show me  
The mistakes in life I've made  
I can see the disappointment in there eyes  
And I know that I will likely die alone

[Chorus]

I'm haunted by the ghost of yesterday  
Visits my dreams and steals breath away  
Relive the moments, I'm desperate to ignore  
I don't want to feel this pain anymore

[Bridge]

Shades of the past awhile [are vile?]  
Impossible for the dark to cover

[Outro]

So run, run while you can  
Soon  
Your haunt will devour
