

# What Have We Become

Novice

Let's take this slow  
To see just where we went wrong  
We're falling apart  
And somehow you never knew just what you were  
So listen when I say  
That you were the only one, you always were  
Now we stand alone

And what have we become  
This was all we needed  
Now we're busted at the seams  
And what have we become  
You were all I needed  
And now this engine's out of steam

Running on fumes  
I wish I could see you now  
Your smell's all around  
I wish you had never left at all  
And I don't know how to put this into words  
The way that it feels to come home into this room without you here

And what have we become  
This was all we needed  
Now we're busted at the seams  
And what have we become  
You were all I needed  
And now this engine's out of steam

I'm sorry for all the times you cried  
My words could never save you  
You think you found me out but I know the truth of it is  
The only lie I ever told you was that I wanted you to go  
I hope you see that this was more than just a lie

And what have we become  
This was all we needed  
Now we're busted at the seams  
And what have we become  
You were all I needed  
And now this engine's out of steam

And what have we become  
This was all we needed  
Now we're busted at the seams  
And what have we become  
You were all I needed  
And now this engine's out of steam

Whoa....  
Whoa....
