

**Oh. Hi.**

**Now, Now**

You don't have to go you could come inside  
But you don't tell me when you sleep at night  
You could come into my room if you like  
But I won't make a sound if you turn the light

I've been gone for much too long  
I've been gone for much too long

You don't have to say it twice  
Because I've done a lot of things tonight  
And I'd take a part of me and put it on your skin if you'd let  
me

I've been gone for much too long  
I've been gone for much too long  
I've been gone for much too long  
I've been gone for much too long

You silly girl you're just too far  
But you can come to me if you want

I've been gone for much too long  
I've been gone for much too long  
I've been gone for much too long  
I've been gone for much too long
