Emergency

Nuclear Assault

Alcohol and pills, a night with some thrills Go out with my friends and leave a good will Some smoke and some buff, now I'm so tough My ignorant habit gets deeper and deeper

I'm Batman, I'm Robin, I'm Bonnie & Clyde For truth and justice, the American way Now I've become what I wanted to be But I can't face reality

Emergency (2x)

I've come a long way, do you hear what I say
There's no need to bother with an education
My school grades are dropping and I've lost my job
The pain in my soul gets weaker and weaker

The party has started it's Saturday night Time to strech my imagination The darkness of night, a bright flashing light There's no turning back, it's time to die

Emergency (4x)

An ambulance ride to a hospital bed Feel such an effort to open my eyes An IV tube, some hypo shots My blood is polluted with conflicting drugs

The last thing I see as the darkness drops down I am surrounded by nervous doctors
My body grows cold, my eyes won't stay open
Finally my heart stops it's useless stuggle
