## **Torture Tactics**

## **Nuclear Assault**

Walk the path of hate Leave others to their fate Never looking back Never feel regret

Alone you stand Alone you fall

Feel no pity nor shame Mercy, you have none Fear the revolt will come Your laws come from a gun

Alone you stand Alone you fall

The tread of boots they fear The passbooks they must bear Freedom, they have none Their only law, a gun

Alone you stand Alone you fall

They walk the path oppressed Their only one release is death Perhaps their day will come Then they will have the guns

Alone you stand Alone you fall
