

# When Freedom Dies

## Nuclear Assault

United in a time, a time of need  
Against a common foe, the enemy  
The years of death endured, the years of pain  
Against an evil force, a force not sane

We become the enemy  
When freedom dies for security

And then the world endured, a victory won  
Against an insane man and his cohorts  
But once the war was done, blind fear prevailed  
And years of darkness came, freedom was nailed

We become the enemy  
When freedom dies for security

We let our freedom die, we let it wane  
We feared an enemy's atomic rain  
But what was on our minds, what we became  
We and the enemy  
We are the same

We become the enemy  
When freedom dies for security  
We become the enemy  
When freedom dies for security
