

## Feather

Nujabes

Light as a feather when I'm floating through reading through the  
daily news measuring the hurt withing the golden rule Centime  
ters of either I'm hearin thespeaker motivational teacher whit  
words that burn people  
Seeing the headlines lined whit discord it's either genocide all  
the planet in uproar  
Never good but rules of paradise are never nice the best laid p  
lan of mice and menare never right  
I'm just a vagabond with flowers for algernon the average joe w  
ho knows what the fuck is goin on  
It's the hope of my thoughts that I travelled upon fly like an  
arrow of god until I'm gone

So driftin away like a feather in air letting my words take me  
and despair  
So I'm keepin it vertical forever elevator ridin the escalator  
to the somethin that is greater  
So driftin away like a feather in air letting my soul take me a  
way from the hurt and despair  
So I'm keepin it vertical forever elevator ridin the escalator  
to the somethin that is greater

Taking chances word tap dancing with wolves in an ice arena out  
there, deep in the woods of arizona  
The sun be high life's ironic aint tryin tobe talib when i writ  
e surreal life I paint it vivid habitat crazy insane  
Watch the propagana 6 O'clock news that are saying cultures cla  
sh for black folk and white trash they revel in the cyberspace  
that might crash  
Dash to millineum a million miles of runnin at the speed of now  
back don't return gunnin rambo style gunho child gunnin  
Ammo blao two times loud stunnin when I hit ya lift you off the  
earth like ayo take you right back to birth  
And niggaz worder why they might worder why this shit might hap  
pen but it does they go  
Driftin away like a feather in air lettin my words take me away  
from the hurt and despair

So I'm keepin it vertical forever elevator ridin the escalator  
to the somethin that is greater  
So driftin away like a feather in air letting my soul take me a  
way from the hurt and despair  
So I'm keepin it vertical forever elevator ridin the escalator  
to the somethin that is greater

Treat you better than me because that's the heavenly key to unlo  
ck the inner strength where my essence will be it's the knowled  
ge of self understanding of the things around me that becomes t

he wisdom this life to the best of my ability  
Channelling energy to my thoughts into your symmetry remember me  
because my clothes remain gold  
I got the gift of gab like them pimps in kangols it never ends  
I keep it rulin like a cypher the first caveman bringin fire  
Innovating and higher to blast mistakes I raise the stakes it's  
double or nothing in this vacuum-less space  
I will survive divide the time to cry fuck a hold or hide I'm a  
live with pride  
And I drove the chevy to the levy but the levy was dry "singin  
this will be the day that I die"
