

# All You Have

## Number One Gun

And what I saw today was more than I can take  
I'll say this honestly  
I was afraid

And the pieces are coming together now  
But there's still just so many things to figure out  
This time there's so many things that I would want the world to take away

This time it feels so right  
And it's time is done, it's time to run  
And it's all you have  
It's all you have for now  
Leave the past there's nothing left  
And it's over now, I'll show you how  
And it's all you have  
It's all you have for now

You know it cause you thought about it  
And when you sing about it it's all right  
Dont be afraid to let it go

And the pieces are coming together now  
But there's still just so many things to figure out  
This time there's so many things that I would want the world to take away

This time it feels so right  
And it's time is done, it's time to run  
And it's all you have  
It's all you have for now  
Leave the past there's nothing left  
And it's over now, I'll show you how  
And it's all you have  
It's all you have for now

All this pain, it's a shame  
You never talk about it  
You know in so many words it's all right  
It's a game on your face, you know you can't deny it  
And now it's you in the dark until the sunrise

This time it feels so right  
And it's time is done, it's time to run  
And it's, it's all you have for now  
Leave the past there's nothing left

And it's over now, I'll show you how  
And it's all you have  
It's all you have
