

# Make A Movie

## Number One Gun

Hey what am I to do  
I guess I'll put myself out  
And lay it all out for you

And hey  
What you gonna say  
You're so quiet right now  
But your love is so loud

Wake up, Wake up,  
Never wanna wake from this all  
Oh you're calling my bluff  
My luck  
Always feeling held up, held up  
So tell me

How long will it take love  
I'm gonna count my lucky stars tonight  
Make a movie out of us tonight

Oh (10x)

Hey  
Remember all the days  
We used to sit in the dirt  
And throw rocks in the lake

And hey this is what it means  
To be the man that takes your hand  
Cause you're the girl of my dreams

Wake up, Wake up,  
Never wanna wake from this all  
Oh you're calling my bluff  
My luck  
Always feeling held up, held up  
So tell me

How long will it take love  
I'm gonna count my lucky stars tonight  
Make a movie out of us tonight

Tell me  
As I breath deep  
(And say) Oh (10x)

You're the right one baby  
At right time baby

How long will it take love  
I'm gonna count my lucky stars tonight  
Make a movie out of us tonight

Tell me  
As I breath deep  
I'm gonna count my lucky stars tonight  
Make a movie out of us tonight

Your the right one baby  
At right time baby  
(3x)
