## **Make A Movie**

## Number One Gun

Hey what am I to do I guess I'll put myself out And lay it all out for you

And hey What you gonna say You're so quiet right now But your love is so loud

Wake up, Wake up, Never wanna wake from this all Oh you're calling my bluff My luck Always feeling held up, held up So tell me

How long will it take love I'm gonna count my lucky stars tonight Make a movie out of us tonight

Oh (10x)

Hey Remember all the days We used to sit in the dirt And throw rocks in the lake

And hey this is what it means To be the man that takes your hand Cause you're the girl of my dreams

Wake up, Wake up, Never wanna wake from this all Oh you're calling my bluff My luck Always feeling held up, held up So tell me

How long will it take love I'm gonna count my lucky stars tonight Make a movie out of us tonight

Tell me As I breath deep (And say) Oh (10x)

You're the right one baby At right time baby

How long will it take love I'm gonna count my lucky stars tonight Make a movie out of us tonight

Tell me As I breath deep I'm gonna count my lucky stars tonight Make a movie out of us tonight Your the right one baby At right time baby (3x)
