

## You Fail Sometimes

Number One Gun

To see that you fail sometimes  
It's the only thing to be  
And the truth will unwind  
And fall on your tongue

You feel that your gonna be opened up  
You think that your gonna see through you heart  
You try not to fall on your face  
Now is the time to open up

It's good to know that you fail sometimes  
You try to see but your right off line

In time I will see that your way  
Is the only way to be  
It will fall on my mind  
That there must be something real  
There must be something real

In time I will see  
There must be something real
