## **Broken**

## **Nuno Bettencourt**

In your eyes reflections of a man Living lies as truthful as he can Senses turn deaf, dumb and blind What you find what you hear What you say and what you're seeing

Who's gonna break the news Who's gonna tie the noose Cause we're broken and we can't be fixed Who's gonna take the fall Who's gonna risk it all Cause we're broken and we can't be fixed Broken way beyond repair

Curtain call the show it must go on My second act the chemistry is wrong Two big stars fighting for applause And the cause of all monologues A baby

What's your secret And is it about me

In your eyes reflections of a man Living lies as truthful as he can I'm blind, deaf, dumb and blind
