

## Fine By Me

Nuno Bettencourt

The rocketship crashlanded Stranded on the moon  
Fine with me, as long as I'm with you  
Caught in an avalanche Buried by the snow  
Fine by me, I'll melt away with you

Most people would rather skim the lake for night time insects  
Most will never find what I have found

According to them I've lost my freedom  
Love 'em and leave 'em is not my freedom  
Maybe it's true I'm a bit addicted  
But being with free is simply loving you

Home lazyn' round the tube With nothin' else to do  
Fine with me, I'll do nothing with you  
Can't sleep the mind is itchin' Bed bugs on the brain  
Don't despair, I'll toss and turn with you

One mans superstition is another man's religion  
Most will never find what I have found

According to them I've lost my freedom  
Love 'em and leave 'em is not my freedom  
Maybe it's true I'm a bit addicted  
But being with free is simply loving you

There's nothin' wrong with space Need time to be alone  
Fine with me, As long as I'm with you  
Chained up in a boiling kitchen Can't escape the heat  
Come with me, I'll run away with you

According to them I've lost my freedom  
Love 'em and leave 'em is not my freedom  
Maybe it's true I'm a bit addicted  
But being with free is simply loving you

Yeah life's a rollercoaster Off the beaten track  
I'm not scared, I'm riding next to you  
Time flies and then your old Years go cruising by  
Fine with me, as long as I'm with you
