

High

Nuno Bettencourt

Imagine there's a place we get high
And we'll get high and it's alright
I want to take you to the
One and only place we get high
And it's alright and it's alright

It's like I told you in the back of the school
You're on mission trying to get to the moon
You're in a panic and you don't know what to do

The tribulations gotta you paying
For rejuvenation
For a limited time you'll be feeling
Like the rookie of the year

I like I like I go all the way
Go all the way come out and play
I want I want I want to take you there
I'll take you there I'll show you where
I want to take you to the

One and only place we get high
And it's alright and it's alright
I want to take you to the
One and only place we get high
We'll get high and it's alright

You're looking northbound
What you're feeling is southbound
In a fast lane but the traffic is
Stuck and you want your money back
Get out of business get the fuck back
In coach granted it's a different approach
Go get your passport
And I'll show you how to fly
