

Mother says you make me weak
Father says that you're a freak
To me you're like no one else
I think I like you

Captured alive
Found as guilty as charged
Evil eye from the past
Chaos carved, home at last

Karmalaa - you're such a trip
Karmalaa - you make me sick
Karmalaa - you were sent to me
Punish me as I deserve

You're such a brilliant acrobat
And when we finish having sex
You burn me with your cigarette
I think I like you

Captured alive
Found as guilty as charged
Evil eye from the past
Chaos carved, home at last

Karmalaa - you're such a trip
Karmalaa - you make me sick
Karmalaa - you were sent to me
Punish me as I deserve

With you it's fun just stayin' in
Chat over a cup of tea
Just like gum surgery
I think I like you - I really hate you - don't even know you
