

So you're on a secret mission  
It's not easy is it  
Go on go in  
Go on and tell me  
How it all works out with no fear  
No fear  
Go straight don't stray  
Cause it's so'k  
Don't be afraid, you're here with me

So you've lost communication  
It's going down again  
It's just a case of misdirection  
Crush it with no fear  
No fear  
Go straight don't stray  
Cause it's so'k  
Don't be afraid you're here with me  
I'll be by your side  
I'll never leave you behind

And when your place in time is getting old  
I'll meet you there to say a quick hello
